The Institute of Chartered Accountants of Nigeria (ICAN) is a professional accountancy body established by the Act of Parliament No. 15 of 1965 to amongst other things, determine the level of knowledge and skills one should possess in order to practice as an Accountant and to raise such standards from time to time.

As part of initiative towards strengthening research in the country and beyond, the Institute of Chartered Accountants of Nigeria publishes a high quality academic research journal titled: **International Journal of Contemporary Accounting Issues (IJCAI) formerly International Journal of Accounting & Finance (IJAF)**
